

## Mercury Metal Skin Smart Label EPC UHF RFID Label for Metallic Assets

Xerafy's patented Mercury Metal Skin is a revolutionary RFID smart label for both metallic and non-metallic assets. The label can incorporate human readable printing, barcodes, and graphics and is extremely low profile and flexible to fit curved surfaces – such as the contour of metallic cylinders and drums. Globally compliant to EPCglobal UHF Gen2 and ISO 18000-6C standards, Mercury Metal Skin is cost effective and versatile for a wide range of applications from product authentication and IT asset tracking, to global tracking of assets shipped and anti-counterfeiting of high value items and medical supplies.

### Features:

- High performance, cost effective label for metallic assets
- Performs reliably on and off metal
- Lightweight and flexible with paper-thin profile
